### Positive Features

1. The school successfully encourages students' attendance and participation in a wide range of distance learning activities. Communication with parents, the well-being of students and the well-being of staff are given a high priority.
2. Teachers ensure that learning objectives for lessons are clear and these are shared with parents and students. Teachers collaborate fully together in planning to ensure continuity and momentum in students' learning. Students receive regular and helpful feedback on their work.
3. Through their short-term planning, leaders and staff have responded with innovative methods for distance learning, through making use of best practice ideas in e-learning from around the world. Long-term planning fully considers future most likely scenarios and the school, with support from the governing body, rightly keeps this under constant review.

### Areas for Development

1. The continuing development of the school's long-term planning with particular reference to:
  - a. Fully developing the current innovative ideas with enabling students' collaboration
  - b. Looking at ways in the future to sustain the current momentum and engagement of students in learning.
  - c. Fully developing the initiative to provide and run parent forums.

## Recommendations and Next Steps

1. Continuing to progress existing high-quality practices in Phase 1 implementation to become embedded practices in the future phases.
2. Developing existing innovative ideas by enhancing distance learning provision, e.g. student collaboration and blended learning approaches.
3. The school needs to prepare and submit a distance learning improvement plan to SPEA within three (3) weeks of receiving the DLRV report. The improvement plan should address the following:
  - a. Recommendations and improvement areas identified in the DLRV report.
  - b. Areas identified by the school as requiring improvement.
  - c. Priorities arising from the school's unique characteristics.
